

Classified Ad Sites

Last Updated Wednesday, 29 November 2006

Get yourself an online classified ads site. It can be local, community based, national or international - it's completely up to you.

Features:

- Define variable fields for the advertisements per categories
 - Support of field types such as text, textarea, boolean, checkbox and selection list
 - Specify the default values of the fields
 - Possibility to activate or deactivate a field
 - Decide whether a field is mandatory
 - Fully searchable
 - Bad word replacement
 - Can be kept private by the owner
 - Control its appearance in the ad lists
 - Create sections of the variable fields by specifying custom separator lines
 - Accept and reject ads or let them appear immediately
 - Handle the list of accepted and pending ads
 - Admin gets email notifications about new ads
 - Users get emails about the acceptance or rejection of their ads
 - Notification management: all the emails sent by the system are customizable
 - Admin can change ad text or disable them completely
 - Admin has full control over ad expiration time, size and dimension limit on the uploaded images, thumbnail dimensions, and much more
 - Control the appearance by specifying custom header and footer templates or changing the stylesheet
 - View and handle the list of users User functions
 - Submit, modify and delete ads
 - Upload images - thumbnails will be generated automatically
 - Browse the list of recent or most popular ads
 - Browse 'my ads'
 - Modify the User profile
 - Extend expiration dates
 - Search in the classifieds database: simple search and category specific advanced search
 - Reply to an ad
 - Send ad to a friend
- If you are interested in having a classified ads website, please contact us, let us know your requirements and we'll send you a very competitive quote.
